

# First Time User Program

## HOW MUCH IS YOUR TIME WORTH?

**Labor Costs** - The cost of labor is the largest variable cost on most deck projects and installation of the deck boards represents a large percentage of the overall labor cost.

**Tiger Claw's First Time User Program** - Tiger Claw has developed a Contractors First Time User Program for our line of Installation Tools. Included in this program are:

- **Tiger Claw Installation Gun** – Reduces the labor costs of deck board installation by as much as 50% or more when compared with conventional installation methods such as deck screws, screw/plug systems, Quick Drive screw systems & plastic biscuit systems.
- **Tiger Jaw Installation Tool** – Provides for a user-friendly installation experience when using our drive-in fasteners with square edge deck boards. Alleviates installation issues associated with sledge hammer & blocker board installation method.

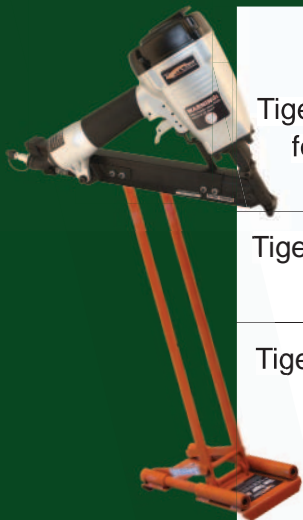

**Program Details** - Purchase Tiger Claw Hidden Deck Fasteners in convenient contractor buckets from your building products dealer and receive a FREE Tiger Claw Installation Gun or Tiger Jaw Installation Tool – see chart below for details.

**Tiger Claw Support** - Your Tiger Claw Regional Sales Manager is available for jobsite demonstrations, product knowledge sessions, and industry and dealer trade shows & contractor events. Please contact **David Ondich at 973-713-2770** or **DavidO@deckfastener.com** for more details.

**”The Tiger Claw [installation] gun not only is the equivalent of an extra man on the job but also improves the precision of our installation by attaching our deck boards more firmly and securely in place than other fastening methods.”**

- Pete Ciaraldi (Professional Building Services by PMC)

### How to Qualify

Free Tool	Sq. Footage	Products
Tiger Claw Installation Gun for grooved deck boards	(2) Contractor Buckets (1000 sq. ft. coverage)	TC-G (TC-150) bucket with TC-SG Coated steel pneumatic screws or TC-SS Stainless steel pneumatic screws
